# Saturday Philmont BLURB

AMERICA'S MOST POPULAR MONTHLY MAGAZINE JANUARY 1988

30 YEARS OF BLURB COVERS  
by Crockwell

Herman  
Crockwell

AND YHV SAID "JUST  
TRY ONE COVER"

JSD & LMI - NII OL ANTH

is published monthly by and for the members of The PHIL-MONT MOBILE RADIO CLUB, INC. Our purpose is to promote Amateur Radio in general, and Mobile Radio in particular. Copying and quoting is permitted with a credit line. We gladly exchange publications with other amateur radio clubs; requests should be sent to the Editor. BLURB subscriptions are available to non-members for \$6.50 addressed to the Treasurer. The club meets at 8 PM on the first non-holiday Monday of every month at The Franklin Institute, 21st Street and the Benjamin Franklin Parkway, Philadelphia. Use the rear entrance. ALL VISITORS ARE WELCOME!

Amateur Radio License Examinations - Every meeting night at 6:30 PM.

#### CLUB INFORMATION

Mailing Address: P.O. Box 88, Abington, PA 19001  
24 Hour Information Number at W3TKQ: (215) 448-1139

#### STATIONS

W3QV - 147.03 Mhz. Repeater - 8200 Ridge Avenue, Philadelphia, PA - Trustee W3B8B  
W3RQZ - 1176 Old York Road, Abington, PA - Trustee W3VVS  
W3TKQ - The Franklin Institute, Philadelphia, PA - Trustee W3PWG  
W3TKQ Operators: WA3AAL, Fred; N3ABS, John; K3TEF, Frank; KA3PJC, Jack; W3PWG, Rollie

#### OFFICERS

PRESIDENT: N3EAY, Bob Ricker, P.O. Box 93, Zieglerville, PA 19492  
VICE PRESIDENT: WB3CMM, Bill Mescanti, 405 E. Rively Ave., Aldan, PA 19018  
SECRETARY: N2RM, Bob Moore, 9U Rose Rita Terrace, Hammonton, NJ 08037  
TREASURER: KB3IV, Ed Masarsky, 15 Poe Avenue, Wyncote, PA 19095

#### DIRECTORS

KB3JW (89); K3KUD (89); W3VVS (88); W3ZPP (88)

#### BLURB STAFF

Editor: W3PST, Woody Haldeman, 125 Keeley Ave., New Britain, PA 18901  
Artist: Sam Kuncovich  
Assistant Editors: W3IIM & W3KQJ  
Typist: W3IIN

DEADLINE: To be assured of publication in the current month, all copy MUST be in the hands of the Editor at the Bored of Directors' Meeting.

10:00 28.400 MHz SSB		Personalized CW	Swap Net			
10:20 3.993 MHz SSB		Practice Net				

from the rear seat - - -

Ah, for the good ole days, or, those were the !! days !! All we had to worry about was falling out of trees or "Watch that red wire, it has ten thousand volts on it." Now, we have hidden dangers like the one reported last month, or possible eye injury from hi-power hand-helds. Now, we have a new one. But, if you have been reading our local paper, you probably already know about it. RADON! A carcinogen for basement ham shacks. There have been increasing reports of radon gas accumulations in the home. More so, recently, with people getting tighter insulation to reduce fuels bills. Members of our Club reside in the area of the Reading Prong which extends into northern New Jersey. Well, what is it? It is a heavy gas formed by the disintegration of radium, and therefore radioactive and potentially cancer causing. Radon can occur almost anywhere, percolating out of the ground. Most of it dissipates into the air, but that which comes up under your basement stands a good chance of remaining in your operating area. But, there are ways to deal with it. First, get a test kit. They range in price from about \$12 to something over \$20. Call your County Agent for particulars.

There are several "Radon Projects" going on around the country. Some tests take less than a week to do, but will take several weeks to get the result. So, what do I do if my basement tests positive? The EPA recommends that you seal the basement, but that isn't easy. I would guess that the easiest would be to provide adequate ventilation, and who knows, maybe your oilburner, with its intake of air for combustion, so close to the floor might be just doing that.

73, Woody

The farmer came to the house, as usual. This time the day before Thanksgiving, to deliver his chicken and inform us he would not be back the next Wednesday. He was going hunting. "What are you hunting?" I asked. His answer was "Deer".

Boy!! I went hunting deer way back when. At that time I lived in Northwest Pennsylvania. How did it turn out? Well, lacking money and I was given a piece of venison, which was to be cooked with a portion of pork. (It is a shame to spoil the taste of good pork). Anyway--two of my ham friends invited me to go hunting deer, up near Emporium, PA. So!--Why not?

It was cold when we left, but up in those tree covered hills it was cold! When we got to the log cabin it was snowing lightly. The setting was a log cabin in a pin-oak forest, next to a small stream. Really terrific, real back history stuff, heated with a pot bellied stove in the center of the room and sleeping bunks around the side.

I noticed, as I helped carry the bags and boxes into the cabin, that most of the ingredients were beer and liquor. Anyway, as soon as we got all the equipment into the house the poker game started. That poker game went on for some days. On the third day I made the mistake of asking "When are we going hunting?" "What!!, go out in that snow? It's cold out there! All the deer will be sleeping in their own cabins." So, that settled that.

I didn't have a rifle, but the other fellows had 30-06s they bought for one dollar (at that time). They were World-War-One guns that they cut short and put on a new wood stock. So, that was our fire power.

By this time, we were about to leave. The next day I figured I'd lived through it so far, but there was one possibility of not

coming out of the forest well. It was the out house! That out house was really something (it was not a brick SH). The boards didn't fit very well and that cold breeze really blew.

On this final day, when I finally got my nerve up to go out there, I peeked out to see how the weather was. There was a beautiful buck just standing there. I woke one of our sharp shooters and finally got it through his boozed brain about the buck. He grabbed his mighty gun and shot the thing.

Brother!! Did that shot wake up everyone.

After being home for awhile this was the story of how we got that buck to come to me. It seems that one of the fellows went out to pick up wood for the pot bellied stove and as usual he had his gun with him for protection from bears and wolves. A buck went running past him and he shot at it. The blood on the ground showed he hit the deer, so he got his friends to help follow the trail through the forest. They finally found the buck and killed it. Getting the buck back to the cabin was the most difficult part of the whole trip.

We used coal for the stove.

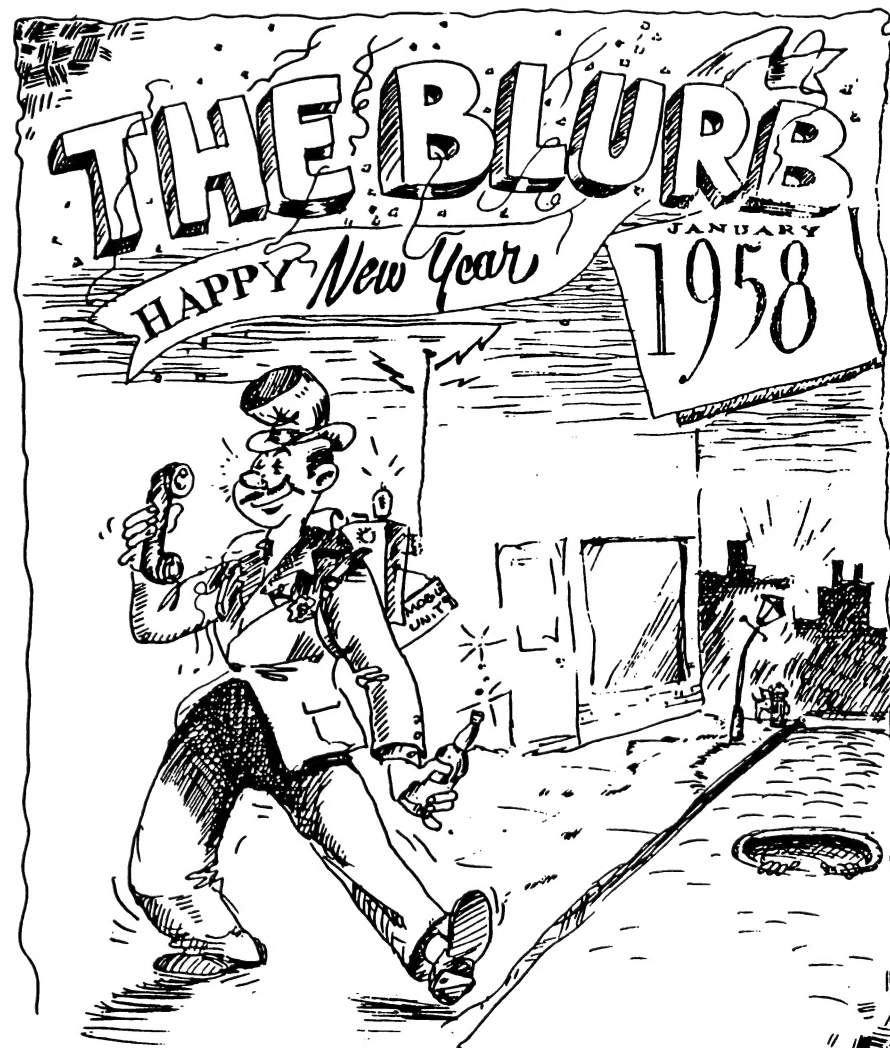

## Get the RF out!

Palomar Engineers has available a helpful report entitled "Using Ferrite Beads to Keep RF out of Television Sets." It tells what kinds of beads and toroids to use and where to put them to suppress the most common RF interference problems. Cost: Free, but send an SASE. (Box 455, Escondido, CA 92025).

—Southwest County ARC, Dallas, TX

Congratulations to SAM KUNCEVICH who, with this issue, begins his 31st year of Phil-Mont covers! Sam's first cover was on the January 1958 issue and he hasn't missed one since! He's outlasted 7 editors so far, and, judging by recent comments in his 'corner', he's working on his 8th!

Many thanks Sam; we'd be just another amateur news-letter without your regular "touch of class". Best wishes for the new year. May your inkwell never run dry!

GEORGE B. WEED , W3KN  
MEMORIAL AWARD  
OF THE  
PHIL-MONT MOBILE RADIO CLUB  
PRESENTED TO  
W3IIM AND W3IIN  
CLAUDE AND VIRGINIA HARING  
IN RECOGNITION OF SERVICE TO AMATEUR RADIO  
1987

LEROY S. HAUSER  
MEMORIAL AWARD  
OF THE  
PHIL-MONT MOBILE RADIO CLUB  
TO  
W3BBB  
CLINTON R. SPENCER, JR.  
FOR DISTINGUISHED SERVICE  
1987

PHIL-MONTER OF THE YEAR  
1987  
TO  
W3RM  
RICHARD A. MOLL  
FOR DISTINGUISHED SERVICE

LADY PHIL-MONTER OF THE YEAR  
1987  
TO  
STELLA TINAGLIA

The George Weed memorial award for 1987 is presented to a group of people who have over the past few years made a significant contribution to our radio club in a number of ways. They have participated in many public service events and club activities with a high degree of enthusiasm. Their ability to organize a particular matter is apparent to all of us on a periodic basis and without their unselfish helpfulness, Phil-Mont would indeed have a large void within our club. Many hours of hard work are put forth each month documenting the past, present and future of Phil-Mont in our widely acclaimed magazine The Blur. We therefore recognize this dynamic duo for their outstanding efforts upon the keyboard and present this award to Jack and Jinny Haring W3IIM and W3IIN, in recognition of service to Phil-Mont and amateur radio.

VERSION 2.0: the version originally planned as the first release (except for a couple of data-eating bugs that just won't seem to go away); no free upgrades or the company would go bankrupt.

VERSION 3.0: the revision in the works when the company goes bankrupt.

NOW AVAILABLE: available any day now.

AVAILABLE SOON: should be out within a year.

AVAILABLE MAY 1: version 1.0 may ship to dealers August 1.

STANDARD: similar to something else on the market.

BACKUP: the duplicate copy of crucial data that no one bothered to make.

SPREADSHEET: a program that gives

the user quick and easy access to a wide variety of highly detailed reports based on highly inaccurate assumptions.

WORD PROCESSOR: software that magically transforms its user into a professional author.

BUSINESS GRAPHICS: popular with managers who understand neither decimals, fractions, Roman numerals, nor PI, but have more than a passing acquaintance with pies and bars.

DATABASE MANAGER: a program that allows the user to manipulate data in every conceivable way except the absolutely essential one he or she conceives of the day after entering 20 megabytes of raw data.

INTEGRATED SOFTWARE: a single product that deftly performs hundreds of functions the user never needs, and awkwardly performs the half-dozen he uses constantly.

Don't worry about computers taking over. If they get too powerful we can just organize them into committees.

## ATTN: hand-helds

If you are wearing the latest fashions, you have a liquid crystal display readout. With this, warm, sunny weather, it behooves you to leave this note where your owner will see it and take heed.

As you know, you get ultraviolet burnout in your display and it turns black and unreadable if your owner leaves you in the sun. If you can't seem to communicate this to your

owner, then I suggest that you put your battery pack down and quit talking for him when he puts you in the sun.

If your display does get black, then you have no recourse but to go to the radio hospital. If your owner isn't willing to give you a new LCD, maybe he will sell you to someone who will. Good luck! —Superstition ARC, Apache Junction, AZ

# THE PERSONAL COMPUTER AWARENESS DICTIONARY FOR BEGINNERS

Do you feel confused by the jargon of the personal computer revolution? Afraid to enter the world of the computer salesman to browse because you don't understand their language? Well, here's a quick lesson on just what some of those slick phrases you've heard REALLY mean!

**IBM-COMPATIBLE:** not IBM-compatible; normally employed only as a decorative bookend.

**FULLY IBM-COMPATIBLE:** somewhat IBM-compatible, but won't run BASIC programs.

**100% IBM-COMPATIBLE:** compatible with most available hardware and software, but not with the blockbusters IBM always introduces the day after tomorrow.

**LAP-TOP:** smaller and lighter than the average secretary.

**TRANSPORTABLE:** neither chained to a wall nor attached to an alarm system.

**HARD DISK:** a device that allows naive users to delete vast amounts of data with simple commands.

**MOUSE:** a peripheral originally named "vermiform appendix" because of its functional resemblance, renamed for its usefulness as a cat toy.

**PRINTER:** an electromechanical paper shredding device.

**MODEM:** a peripheral used in the unsuccessful attempt to get two computers to communicate with each other.

**NETWORK:** an electronic means of allowing more than one person at a time to corrupt, trash, or otherwise cause permanent damage to useful data.

**DOCUMENTATION:** a perplexing linen-bound accessory resorted to only in situations of dire need when friends and dealers are unavailable;

able; normally employed only as a decorative bookend.

**USER-FRIENDLY:** supplied with a full-color manual.

**VERY USER-FRIENDLY:** supplied with an on-disk and audiotape tutorial, so the user needn't bother with the full-color manual.

**EXTREMELY USER-FRIENDLY:** supplied with a mouse so that the computer user needn't bother with the on-disk and audiotape tutorial, the full-color manual, or the program itself.

**EASY TO LEARN:** hard to use.

**EASY TO LEARN AND USE:** won't do what you want it to.

**POWERFUL:** hard to learn and use.

**MENU-DRIVEN:** easy to learn.

**COPY-PROTECTED:**  
(1) a clever method of preventing incompetent pirates from STEALING software and legitimate customers from USING it.

(2) a means of distinguishing honest users from thieves by preventing larceny by the former but not the latter.

**WARRANTY:** an unconditional guarantee that the program purchased is actually included on the disk in the box.

**VERSION 1.0:** buggier than Maine in June; eats data.

**VERSION 1.1:** eats data only occasionally; upgrades free to avoid litigation by disgruntled users of version 1.0.

This gentleman has for many years been a mover and shaker within the organization. His talents in electronics and willingness to assist all members at any time has helped to make this club the best there is in the Delaware Valley. Any project, regardless of size, has always been met with a vitality unequal to anyone else and it is this spirit which has kept our radio club in high gear for many years. The contribution that he has made over the past year has enabled us to improve our station in life and that has meant a great deal to those people who enjoy the privilege of communicating with others. This sustained effort to ensure the future of amateur radio through the design and implementation of a quality repeater system should not go unnoticed. We therefore recognize him tonight for this significant achievement by saying thank you for a job well hammered and presents the 1987 Leroy Hauser memorial award for distinguished service to Clinton R. Spencer Jr. W3BBB

This very quiet person has made a meaningful contribution to amateur radio in general and to Phil-Mont in particular. His many hours of assisting people in one form or another has enabled hundreds of prospective Hams to fulfill their dreams by becoming an amateur radio operator. His cordial greeting upon our repeater and his good operating practice is the right stuff to make everyone feel at home even if your from DX land. His tolerance to Baltimore or Long Island at 3 a.m. is more than most of us could take but if an emergency where to happen, he certainly would be there to handle the traffic. This commitment to the health and welfare of everyone is what has earned him the title of Philmonter of the year which we bestow upon Richard A. Moll. W3RM

The four people I have mentioned tonight needed the support of its members in a number of ways and without that assistance, we certainly would not be where we are today. One of our closest members John Tinaglia helped us in every way he could and we are grateful to him. His wisdom and personality was the ingredient to make this club the mature group of the 80's. Before his untimely passing he would share the hopes and dreams for the organization with his wife Stella and today her interest in Phil-Mont has enabled us to fulfill some of those dreams. It is a blessing for which we are truly thankful and therefore we the members of Phil-Mont Mobile Radio Club take this opportunity to recognize her continued support and present to Stella Tinaglia the Lady Phil-Mont award for 1987.

Since the inception of the volunteer examine program by the ARRL, several of our members and non-members have participated in the VE testing sessions held here at the institute. The program has gained recognition over the years because of the total dedication by every examiner to provide a fair and accurate session each month. This has lead to a number of new amateur radio operators or existing hams who wanted to upgrade and felt this was the place to attended.

The person who has lead the examiners since the inception of VE testing is Jake Kovalchek and his talents will be missed at the end of this year. I think you will all agree with me that he and his assistants have done a marvelous job running the program so tonight we take this opportunity to say thank you for a job well done. # Rochester HAMFEST

ROCHESTER AMATEUR RADIO ASSOCIATION  
300 WHITE SPRUCE BOULEVARD • ROCHESTER NY 14623  
(716) 424-7164

American Radio Relay League  
Atlantic Division Convention  
combined with  
New York State Convention

MAY 20-21-22, 1988

November 28, 1987

The Blurb  
125 Keeley Ave  
New Britain, PA 18901

Your convention is coming. Yes, your Atlantic Division ARRL Convention is coming on Friday, Saturday, and Sunday, May 20-21-22, 1988.

The annual convention is held in Rochester at the Monroe County Fairgrounds. Usual attendance is around 6,000. Regular hamfest activities are provided. There will be talks by well known speakers. There is a huge commercial exhibit area featuring many of the major amateur radio stores and manufacturers. There is an indoor flea market as well as an outdoor tailgate flea market. A Saturday evening awards banquet is a special feature at Rochester.

Headquarters hotel is the Rochester Marriott Thruway Inn. Special rates are \$75 single or double.

Tickets are: \$6.00 advance, \$7.00 at the gate. Combined registration and Saturday banquet, only \$20. Flea market tickets: \$16 per table indoors, \$5 per parking space outdoors. Indoor space by advance order only. All flea market sellers must hold a registration ticket as well.

Please print this information in your next edition. Put date reminders in subsequent editions. We will be sending further detailed information as it becomes available. A brochure will be mailed in mid March to over 15,000 people already on our mailing list.

Not for publication: for the asking, newsletter and club paper editors can receive a free press pass for the show. Send me your pass request.

Sincerely,

*Harold C. Smith*

INGLIS HOUSE RADIO CLUB

2600 Belmont Avenue • Philadelphia, Pa. 19131

23 August, 1987

Dear Mr. Reishert:

Thank you so very much for the very fine typewriter you presented to our Radio Club. What a thoughtful, helpful gift!

On behalf of all those of us who your kindness has touched, I extend our deep appreciation, & very best wishes to you.

Sincerely,

Ann Sopp

(for the Inglis House Radio Club)

## PHIL-MONT COMMITTEES

**BLURB:-** Contribute articles, technical or other; general help to get the Blurb out each month.  
Subcommittee: Blurb folding.

**CERTIFICATES:- & AWARDS** Select deserving club members for annual awards.

**DIRECTORY:-** Collate and publish yearly membership directory.

**DX:-** Track DX and report to membership.

**MEMBERSHIP:-** Encourage new member applications, and maintain membership records.

**MO-COM V:-** Maintain and improve the communications van.

**NET CONTROL:-** Serve as a net control operator on one of the club's various nets.

**HISTORICAL:-  
-ARCHIVES** Photograph and video tape club functions and maintain and improve the club's archives.

**PROGRAM:-** Provide program speakers, material and ideas for monthly meetings.

**PUBLICITY:-** Publicize club activities.

**RAFFLE & PRIZES:-** Conduct the monthly raffle and obtain prizes.

**REFRESHMENTS:-** Obtain goodies for the monthly meetings.

**REPEATER &:-  
TECHNICAL** Maintain and improve the repeater.

**SOCIAL EVENTS:-** Plan and organize social events.

**SUNSHINE:-** Maintain contact with unwell members.

**PUBLIC SERVICE:-  
SPECIAL EVENTS** Plan and organize special events.

**VE PROGRAM:-** Give Novice through Extra Class license exams.

**W3TKQ:-** Maintain, improve and operate W3TKQ.

**WELCOME:-** Meet and greet visitors at monthly meetings.

Mr. Jim Clear  
ARRL  
225 Main St.  
Newington, CT. 06111

11/26/87

Re: The Phil-Mont Mobile Radio Club VE Program

Dear Jim :

Just to confirm my telephone call of several weeks ago wherein I indicated that as of the February 1988 VE session for the club, I would be leaving that job to a very capable VE namely Mrs. Ramona B. Dabagian call sign KM3N . As of the February 1988 mailings please begin to direct the package to Ramona's residence at:

Mrs. Ramona B. Dabagian KM3N  
429 Shetland Road  
Darby , Pa. 19023  
Phone : 215 583 8363

Also Jim, as you are aware, since we are consistant in our program and offer them every month at the Franklin Institute on the first Monday of the month , I will advise Ramona that this policy of automatic mailings will continue. I certainly want to thank you and your staff for your fantastic cooperation during the three year period that I have been handling the program and also want you to know that in one way or another we have helped to move along over 400 applicants during that time and have enjoyed every moment.

I will be spending the next six to nine months in Chicago and will then return home to retirement.

I will also by means of this letter advise Ramona to send to your attention a letter as soon as possible showing the new Monday dates by month for the year of 1988 so that your computer mailings will not have to be interrupted.

73 Jim

## BETTY CLIFFORD

Early on December 12th Betty  
Clifford died after a long ill-  
ness.

The XYL of Larry, W3UY, Betty  
was known by many Phil-Monters,  
and will be missed by all.
